BUS 3

Financial Accounting

Instructor Contact:

Instructor: Kathy Huff

email: kathy.huff@deltacollege.edu (<mailto:kathy.huff@deltacollege.edu>)

Office Location: Locke 413

Instructor's Preferred Method of Contact:

- Please use the Canvas Inbox to send me messages.
- For content related questions, please use Canvas, Modules and post in the discussion thread for the related chapter.

Please do not email me unless you have no access to Canvas. My emails are very busy and it is easy for me to miss your message. Canvas messages and discussions are the best way to communicate with me.

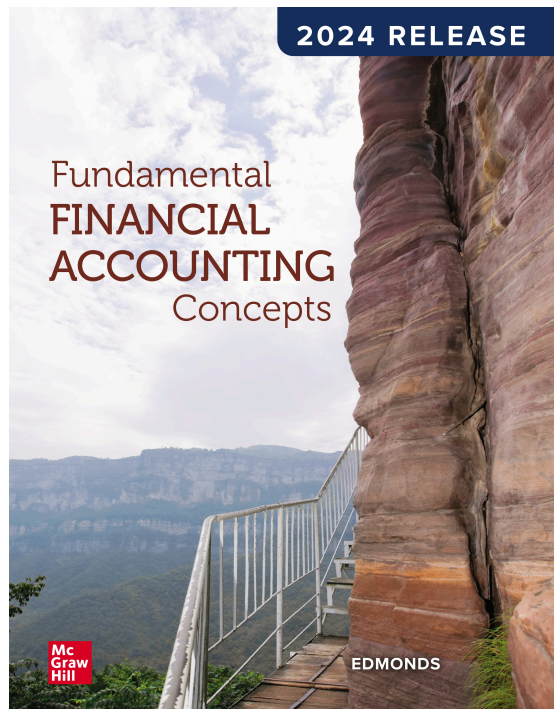

Class Hours:

Class meets online from June 1 to July 26, 2026.

Computer and Internet Required for the Course:

Using a computer with internet access is required for students to take online courses. If those resources are limited or unavailable please understand that this is not considered an excuse for late or missed work.

Required Text for the Course:

Fundamental Financial Accounting, Edmonds

Students must purchase the text book and Connect access code. They are required to be successful in the class and the best price is from the [Delta College Bookstore \(https://bookstore.deltacollege.edu/home\)](https://bookstore.deltacollege.edu/home). Please go to the [Textbook \(https://sjdc.instructure.com/courses/37989/pages/textbook-2\)](https://sjdc.instructure.com/courses/37989/pages/textbook-2) page found in the Course Orientation Module for more details.

Course Description:

This is the study of accounting as an information system, examining why it is important and how it is used by investors, creditors, and others to make decisions. The course covers the accounting information system, including recording and reporting of business transactions with a focus on the accounting cycle, the application of generally accepted accounting principles, the financial statements, and statement analysis. It includes issues relating to asset, liability, and equity valuation, revenue and expense recognition, cash flow, internal controls, and ethics. (HBCU, UC, CSU, C-ID ACCT 110)

Artificial Intelligence

Students may use AI programs like ChatGPT or Gemini to help generate ideas and brainstorm. However, you should note that the material generated by these programs may be inaccurate, incomplete, or otherwise problematic. You may not submit any work generated by an AI

program as your own. If you include material generated by an AI program, it should be cited like any other reference material. Violations of this policy will be considered academic misconduct. Different classes at Delta College have different AI tool usage policies and it is the student's responsibility to conform to the expectations for each course.

Disability Support Programs and Services (DSPS):

Students requiring accommodations for a certified disability that may affect class performance are requested to provide me with their DSPS Accommodation Notice during the first week of the semester. You can meet with a staff member at Disability Support Programs and Services (DSPS) so those appropriate arrangements can be made.

Please connect with Disability Support Programs and Services (DSPS) to arrange accommodations at (209) 954-5151 x6272, by e-mail at dsps@deltacollege.edu or via [LiveChat](#)  <https://www.deltacollege.edu/about/offices/DSPS>

Technology Support:

- [Canvas Support](#)  <https://pdc.deltacollege.com/support-students/>

Important: Please do not use Internet Explorer with Canvas. Supported Web Browsers include Microsoft Edge, Firefox, Google Chrome, and Safari.

McGraw-Hill Connect Get Tech Support

Visit the [Tech Online Support Center](#)  <http://mpss.mhhe.com/> or contact us below:

Hours of Operation:

- Sunday: 12:00 PM to 12:00 AM EST
- Monday-Thursday: 24 hrs
- Friday: 12:00 AM to 9:00 PM EST
- Saturday: 10:00 AM to 8:00 PM EST

Phone: (800) 331-5094

Online: [Submit a Support Request](#)  <https://mhedu.force.com/CXG/s/ContactUsWebForm>

Institutional Services Available to Students:

Contacting your TrAC [Academic Advisors](https://www.deltacollege.edu/student-support/student-services/need-help-ask-academic-advisor)  (<https://www.deltacollege.edu/student-support/student-services/need-help-ask-academic-advisor>).

For information about technical support, online tutoring services, library services, counseling, childcare, etc. please click on the following link: [Delta College Students](https://www.deltacollege.edu/student-life)  (<https://www.deltacollege.edu/student-life>).

What You Can Expect from Me:

- Videos and/or written explanation lessons of main topics uploaded on Canvas, Modules.
- Daily review of student-initiated chapter discussion questions answered by me in Canvas.
- Periodic announcements from Canvas with due date reminders and other important information.
- The following response times for questions and grades:
 - Canvas Private Conversations - within 48 hours
 - Canvas Discussion Board questions - within 48 hours
 - Canvas Graded Modules - within 2 weeks of due date
 - Connect Tests, Quizzes - upon submission

Obligation of the Student:

To be successful in this class, it is highly recommended that you do the following:

- Complete all Canvas and Connect assignments and turn them in on time. In business, due dates are crucial to success and this policy is in place to help students learn to be responsible business people and meet deadlines. The assignments are always due at 11:59 p.m. on the due date, but can be turned in early. Partial credit can be earned for incomplete assignments. Assignments are not reopened after their due dates and late work will not be accepted.
- Ask questions if you do not understand a particular point. Please communicate in Canvas using the private messaging or discussions. Emails will be redirected back into the Canvas private messaging system.
- Participate in class discussions. This will contribute to the overall learning of the class.
- No student will be allowed to be disruptive in any class discussions. After one warning they will be asked to exit the discussion immediately and given a zero for that assignment. They may return for the next scheduled discussion.
- Attend class regularly. Each new lesson or unit in accounting is built upon what has come before. Therefore, it is required that students attend and participate starting on the first day of class. Continual participation and completion of assignments is necessary for success.

- Students are highly encouraged to work through the Personal Assessments in Connect for each chapter. The intent is to test your own strengths and weaknesses so that you can learn and practice the accounting concepts.

Neither “Plagiarism” nor “Cheating” will be tolerated and will result in the maximum penalty of a failing grade for the course and recommendation for suspension from the college. *Plagiarism* is the deliberate presenting of work, words, ideas, theories, etc. derived in whole or in part from a source external to the student as though they are the student’s own efforts. *Cheating* is the disseminating or receiving of answers, data, or other information by any means other than those expressly permitted by the instructor as part of any academic exercise. I do not allow copying of answers, data or other information (or allow others to do so) during an examination, quiz, homework, or any other academic exercise in which students are not expressly permitted to work jointly with others (See Delta College’s Administrative Procedure 5500).

Students should refer to the [Student Handbook](https://deltacollege.edu/campus-offices/student-services-division/delta-college-student-handbook)  (<https://deltacollege.edu/campus-offices/student-services-division/delta-college-student-handbook>) for their rights and responsibilities and other valuable student information.

Attendance and Participation:

Any student who fails to complete the Canvas Introduction, Attendance Quiz, and McGraw-Hill Connect assignment by June 8, 2026 may be dropped, unless the student has advised and obtained an absence approval from the instructor.

On or before the last business day before the course census date, a faculty member shall mandatorily drop a student who has been identified as a no show or has excessive absenteeism and is no longer participating (nonparticipation) in the course, except if there are extenuating circumstances that have been communicated prior to the due date and approved by the instructor.

A student with excessive absenteeism or nonparticipation, may be dropped from the class providing the withdrawal deadline for the semester/term has not passed. No drops will be allowed after the “W” date; a grade must be issued.

Excessive absenteeism is defined as not participating in the course for one week or more. Participation in the course involves completing course activities. Course activities include graded Canvas and graded Connect assignments. Simply logging in does not count as participation.

Nonparticipation is defined as excessive unexcused absenteeism.

Last date to drop a full-term class WITHOUT a “W” notation on the academic transcript is June 10, 2026. Last date to drop a full-term class with a “W” notation on the transcript is June 30, 2026. In accordance with Title 5; Section 55024, and AP 5075, students who remain enrolled in a full-term course after the final drop date for the term must be assigned a grade for the course.

It is the student's responsibility to drop a class or withdraw from college.

Athletics and Authorized Field Trips:

In the case of an athletic event or authorized field trip, the student will not be considered absent. It is always the students responsibility to check due dates of assignments/tests and contact professor if there is a conflict. When possible, arrangements will be made to allow students to complete assignments early prior to their absence. Late work will not be accepted.

Travel and Internet Access:

Every semester, some students travel internationally or to locations where internet access is limited or unavailable. Please understand that this is not considered an excuse for late or missed work.

You are responsible for completing all coursework on time, regardless of your location. This means you must plan ahead if you know you will be traveling or in an area with poor internet.

As the semester progresses, more modules will open. If you plan to be away, you may work ahead and complete assignments early. This flexibility allows you to stay on track without falling behind due to travel.

McGraw-Hill Connect Practice:

In each module there will be concept videos and practice problems where students can assess what they have learned, then study and practice at their own pace. These problems are open for the entire duration of the semester, may be attempted unlimited times and have zero points assigned to them. Each time these exercises are submitted all answers and solutions will be given for the student to review.

Points Earned in Connect:

It is the student's responsibility to watch for due dates which can be found in the Course Summary at the bottom of the Syllabus page, Canvas Modules and in Connect.

Quizzes-All Chapter Quizzes will be administered in Connect. Each quiz will be open when the module opens and close when the module closes. Students will have two attempts for each quiz.

Tests-All Module Tests will be administered in Connect. A total of four mid-term exams and one final exam will be administered in Connect, with each weighted equally and worth 100 points each. Students will be able to see their score on each exam when it is submitted. Then after a 48 hour waiting period, students will be able to see their answers and solutions.

Late submissions for the four mid-term tests will be accepted. If the initial due date for one of the four mid-term tests is missed, there is a 48 hour period when students may take their test for a reduced grade. The test grade will be reduced by 20% if one day late and 40% if two days late. After the 48 hour period the test will no longer be available and no more late work will be accepted.

Late submissions for the final test will not be accepted.

If a student experiences a technical problem while taking their test that prohibits them from completing their test, they need to immediately (at the time of the event) contact their instructor. Provide as much evidence as possible to support the case such as pictures, snips, etc. so the situation can be evaluated and the student may get an opportunity to complete their exam. After this time, it will no longer be possible for a student to take the test. Make-up exams will not be given.

Proctorio is used for proctoring all graded assessments in McGraw-Hill Connect. For details about technical computer requirements and specific settings used please go to the [Proctorio in Connect \(https://sjdc.instructure.com/courses/37989/pages/how-proctorio-is-used-in-connect\)](https://sjdc.instructure.com/courses/37989/pages/how-proctorio-is-used-in-connect) page found in the Course Orientation Module. For additional information about privacy and security please go to the [Proctorio Privacy and Security \(https://sjdc.instructure.com/courses/37989/pages/proctorio-privacy-and-security\)](https://sjdc.instructure.com/courses/37989/pages/proctorio-privacy-and-security) page found in the Course Orientation Module.

Points Earned in Canvas:

Students will be required to post two graded discussions as assigned. Please go to the Course Summary or Modules section in Canvas for due dates of these assignments.

It is the student's responsibility to watch for due dates which can be found in the Course Summary at the bottom of the Syllabus page, Canvas Modules and in Connect.

Grading:

The final grade for the course will be determined from the various course content as follows:

Points Possible	
<u>Assignment</u>	<u>Points</u>
Module One Test – Chapters 1, 2 & 3	100 Points

Module Two Test – Chapters 4, 5 & 6	100 Points
Module Three Test – Chapters 7 & 8	100 Points
Module Four Test – Chapters 9, 10 & 11	100 Points
Final Module Test– Chapters 12 & 13	100 Points
Connect Orientation	5 Points
Proctorio Orientation	5 Points
Connect Chapter Quizzes	130 Points
Canvas Graded Discussion	5 Points
Canvas Graded Quiz	5 Points

A generous amount of extra credit is offered throughout the course. Therefore, the instructor will not make subjective adjustments and the final grade for the course will be assigned based on what was earned as a percentage of the 650 points maximum as follows:

Grading Scheme

A	Excellent Work	93% to 100%
A-	Exemplary Work	90% to 92.99%

B+	Very Good Work	87% to 89.99%
B	Good Work	83% to 86.99%
B-	Very Satisfactory	80% to 82.99%
C+	Better than Satisfactory Work	77% to 79.99%
C	Satisfactory Work	70% to 76.99%
D	Less than Satisfactory Work	60% to 69.99%
F	Failing	0% to 59.99%

Extra Credit:

Periodically throughout the course, extra credit quizzes on will be given on Connect. It is the student's responsibility to check Connect for the due dates. The extra credit quizzes are separate from the chapter quizzes. There will also be extra credit points available to earn on each test and the final exam.

Notes:

Canvas settings should be set to receive alerts when the instructor sends out an announcement.

The Connect and Canvas assignments are due at 11:59 p.m. on the due date and will not be accepted late. If the student has not manually submitted Connect assignments, they will be automatically submitted at 11:59 p.m. on the due date.

Dates are subject to change. In the event of a conflict, the due dates in the Connect and Canvas assignments will govern.

The instructor reserves the right to make any adjustments necessary in the operation of the course that in her professional judgment are warranted to better meet the needs of the students.
